

ABSTRACT

The objective of this interface is to manage passwords for different accounts on the internet. The user shall be able to save all the username and passwords information of the accounts he holds on the internet using this application. These details shall be saved in the database in encrypted format. This will help the user to remember different usernames and passwords for accounts on the internet. The user shall be able to add account, edit and delete account using the system. The user has to login to the system in order to use this tool. It takes user login and password. It allows user to change the password for the tool being used. This interface is developed using Visual Studio Code. The tool will allow the user to view all the different accounts he holds in a list view on the left screen. All the details related to the account like the username, password and platform shall be displayed on the right screen. The password is visible in decrypted format. The user can save any number of account information using this tool.

ACKNOWLEDGMENT

I would like to express my very great appreciation to my supervisor Md Monowar Hossain, Lecturer, Dept. of CSE, BSMRSTU for his valuable and constructive suggestions during the planning and development of this project. His willingness to give his time so generously has been very much appreciated. Advice given by other academic lecturers has been a great help in completing this project.

Secondly, I would like to thank my friends who helped me to make my work more organized and well-stacked till the end.

Last but clearly not the least, I would like to thank The Almighty for giving me strength to complete my report on time.

Md Ibrahim Hossain

Table of Content		
	Abstract	
	Acknowledgement	

	Table of Content	
Chapter 1	Introduction	
1.1	Introduction	
1.2	Background and present state	
1.3	Objectives and specific aims	
Chapter 2	Literature Review	
2.1	Introduction	
2.2	Computer-based information system	
2.3	Advantages of Computer-Based Information Systems	
2.4	C language Based System	
Chapter 3	Methodology	
3.1	Existing System	
3.2	Proposed System	
3.3	Features of Proposed System	
3.4	System Environment	
3.4.1	Hardware Configuration	
3.4.2	Software Configuration	
Chapter 4	Some Screenshot of running project	
Chapter 5	User Manual	
5.1	Introduction	

5.2	Importance of Testing	
5.3	Test Plan Strategies	
5.3.1	Unit Testing	
5.3.2	Integration Testing	
5.3.3	Functional Testing	

5.3.4	System Testing	
5.3.5	White Box Testing	
5.3.6	Black Box Testing	
5.4	Test Objectives	
5.5	Test Strategy and Approach	
5.5.1	Features to Be Tested	
5.5.2	Acceptance Testing	
5.6	Results	
Chapter 6	Limitation and Future Scope	
6.1	Limitations	
6.2	Future Scope	
Chapter 7	Conclusion
